

Terms 5 & 6 Connected Learning Project.

Dear Parents,

In connected learning this term we will cover the subjects History, Geography, Design and Technology and Art.

We will be looking at significant explorations including space, boats, planes or on foot; including Antarctica and the Arctic. Our Term 6 will end with learning the five continents and 5 oceans.

Therefore, for this project we would like the children to create a poster of somewhere they would like to explore, this could be a place, a country, an ocean, a continent or a planet in space.

We look forward to seeing your children's beautiful creations.

Please can your children bring in their posters by Friday 5th July 2024.

Many thanks for your continued support.

Mrs Nickle & Miss Tree
