

Year 5 Term 5 Project Based Homework

This term our Connected Learning is led by the question:

What impact do humans have on Planet Earth?

In the coming weeks, we will be focusing on what effects humans have on our planet, changes in: climate, population, pollution, energy sources, animal habitats and ocean life.

To support your learning this term, please choose at least one of the following homework projects:

Connected Learning: Campaign Poster/Speech	Outdoor Learning: Video	Art/DT: Creative
Option 1: Save our Planet!	Option 2: Local Area Clean-up	Option 3: Recycling Materials
<p>Create a poster encouraging people to save our planet. Make sure your message is clear of what people can do to help! Focus on one area e.g. littering, recycling, using renewable energy etc.</p> <p>Write a speech to accompany your poster - be persuasive but make sure it's inspiring not aggressive!</p>	<p>If you've been inspired to make a difference - record your journey! This needs to be more than pick up a few wrappers in the park.</p> <p>Perhaps take part in a beach clean or a community effort to make a new pond habitat for local wildlife. Whatever you do create a video or a photo slideshow to show us your positive impact on the environment.</p>	<p>Create a model/piece of art from recyclable materials. Your art needs to send the message to take care of our planet. Here is an art piece made of bottle caps. Research ideas to inspire you!</p> 

Completed homework should be brought into class ready to present on Monday 20th May 2024.
